🧠 LA MATIÈRE

Un panneau acoustique en fibres recyclées (60% bouteilles plastiques), révélé par une impression artistique haute définition. **Invisible au premier regard, essentiel à l'oreille.**

🔊 LA FONCTION

Chaque œuvre absorbe le bruit ambiant et réduit la réverbération — la performance d'un panneau technique, la présence d'un tableau.

Classe d'absorption A · Réaction au feu B-s1,d0 · Air intérieur sain (COV A+)

🌍 L'UNIVERS

Une collection exclusive, née de la collaboration avec des artistes urbains contemporains. Chaque panneau reproduit fidèlement une œuvre originale. Le tableau devient un objet de décoration murale à forte identité et solution technique invisible.

Positionnement : *"Ne sacrifiez plus la décoration pour le confort acoustique."*

Pimax — le pop détourné, entre ironie et culture populaire

Dacruz — le street art parisien, brut et iconique

Eddy Vitalone — le pop baroque, une explosion de couleurs

Paper&Pen — l'architecture à l'encre, une poésie du quotidien

MGLaBomba — le graffiti explosif, entre culture urbaine et randonnée chromatique

LemonCurves — la géométrie organique, douce et vibrante

KundoColors — énergie urbaine et couleurs vibrantes

BEFA — formes naïves et motifs inspirés du Portugal

VeronikFerrero — la sensibilité picturale, entre émotion et abstraction
